## Experience

---

### **SBAM Team / Mobile App Developer - Co-Founder**

January 2021 - PRESENT, Damascus, Syria.

Mobile App Development team leader, while also being involved in the development process myself. I provide solutions and support, and implement them in the development process.

### **University Center for Applied Sciences / IT Tech Support**

November 2020 - January 2021, Damascus, Syria.

Keep the IT halls/rooms in working conditions, with all the equipment including the Laptops, monitors, projectors, etc..

Install any new software required for any new courses.

General Maintenance of all devices in the institute.

### **Sony Mobile AB / Software Tester**

October 2015 - October 2017, Online.

I worked on Sony's Android Concept Initiative, where I tested vanilla Android software, helped them discover bugs, add new features, and file battery and performance reports directly for the developer team. Many of my suggestions made it to Sony's official software.

# Education

---
